

DARIAH-EU AAI Service Provider Workshop and colocated 1st FIM4D WG Meeting

The event will take place from 1st to 2nd June, 2016, in Tübingen, Germany

Schedule

Day 1 (1st June): Providing online services to a SAML based identity federation using Shibboleth software

Trainers: Lukas Hämmerle (GÉANT/SWITCH), Martin Haase (DAASI International)

A resource or service provider needs to install a server called Service Provider (SP) and integrate it with his or her service in order to securely provide resources and services to a SAML based identity federation online. In this submodule the participants install, test and configure a Service Provider using open source Shibboleth SP software. The goal is to make the participants familiar with the basics configuration of Shibboleth SP. At the end of the training participants should be familiar with the basic aspects of running a Shibboleth SP.

- 09:00 Welcome and Introductions
- 09:15 Federated Identity Management, SAML, Shibboleth and VM Setup
- 10:30 Coffee break
- 10:50 Basic Shibboleth SP Installation and Configuration
- 12:30 Lunch break
- 13:30 Session Handling and User Attributes
- 15:00 Coffee break
- 15:20 Access Control, Advanced Topics and Q&A session
- 17:00 Close
