## THE HISTORY MANIFESTO

How should historians speak truth to power – and why does it matter? Why is five hundred years better than five months or five years as a planning horizon? And why is history – especially long-term history – so essential to understanding the multiple pasts which gave rise to our conflicted present? *The History Manifesto* is a call to arms to historians and everyone interested in the role of history in contemporary society.

Jo Guldi and David Armitage

## Quelles ambitions pour l'histoire des sciences au XXI<sup>e</sup> siècle ?
